--	--

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.
I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,256,368 B1, granted July 3, 2001 and for which a reissue patent is sought on the invention entitled METHODS AND APPARATUS FOR SCOUT-BASED CARDIAC CALCIFICATION SCORING

the specification of which

is attached hereto.
 was filed on July 2, 2003 as reissue application number 10/613,791
and was amended on July 2, 2003
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- by reason of a defective specification or drawing.
 by reason of the patentee claiming more or less than he had the right to claim in the patent.
 by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

See Attachment I hereto

WARNING: Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.		
We hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.

Attachment I

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

I verily believe the original Application to be wholly or partially inoperative by reason that the Patent claims less than I have a right to claim in the Patent. The claims contain excess limitations not necessary for patentability. For example, Claim 1 includes producing CT images, first scout-scanned CT image, second scout-scanned CT image, first scout-scanned CT image, second scout-scanned CT image data; Claim 9 includes multi-slice CT imaging system; Claim 10 includes the CT imaging system; Claim 11 includes third scout-scanned image; Claim 12 includes first scout-scanned CT image, second scout-scanned CT image, first scout-scanned CT image, second scout-scanned CT image data; Claim 20 includes a scout scan, scout-scanned data acquisition; and Claim 21 includes a third scout-scanned image; which are not necessary for distinction over the prior art.
